

INI-0031-D3

IN THE CLAIMS

1. (Original) A pallet substructure, comprising:
a reinforcement structure;
a foot member; and
a gusset disposed in mechanical communication with said reinforcement structure and
said foot member.
2. (Original) The pallet substructure of Claim 1, wherein said gusset is attached to said
foot member.
3. (Original) The pallet substructure of Claim 2, wherein said gusset is attached to an
inner wall of said foot member.
4. (Original) The pallet substructure of Claim 3, wherein said foot member is filled with
a foam support material.
5. (Original) The pallet substructure of Claim 1, wherein said foot member is filled with
a foam support material.
6. (Currently Amended) The pallet substructure of Claim 1, wherein said reinforcement
structure is bowed out of the a plane thereof the reinforcement structure.
7. (Original) A pallet substructure, comprising:
a reinforcement structure bowed out of plane thereof;
a foot member, wherein said foot member has foam material therein; and
a gusset disposed in mechanical communication with said reinforcement structure and
said foot member.

INL-0031-D3

8. (New) The pallet substructure of Claim 7, wherein said reinforcement structure is filled with a foam support material.

9. (New) The pallet substructure of Claim 7, further comprising another reinforcement structure, wherein the another reinforcement structure is in the plane.

10. (New) The pallet substructure of Claim 9, wherein only a sufficient amount of said reinforcement structure to go around the second reinforcement structure is bowed out of the plane.

11. (New) The pallet substructure of Claim 1, wherein said reinforcement structure is filled with a foam support material.
